We value our partnership and trust.

Versana Premier Platinum

Powerful. Versatile. Productive.

WORLD-CLASS ULTRASOUND DESIGNED FOR PEACE OF MIND.

The Versana Premier™ Platinum ultrasound system can help you deliver high-quality, personalized care, patient after patient, day after busy day.

This innovative system is well suited for general practice clinics, physical check-up centers, community health clinics, and other facilities offering basic medical care. It is versatile to cover abdominal, OB/GYN, cardiac, urology, vascular and musculoskeletal exams.

A wide variety of probes and clinical features let you provide quick and comfortable exams, see clearly, and confidently diagnose a broad range of conditions.

ERGONOMIC FEATURES FOR CLINICIAN AND PATIENT COMFORT

- 21,5" high resolution LED Monitor
- Articulating monitor arm
- Touch panel
- Height-adjustable console
- Integrated battery (optional)
- Gel warmer
- 4 Probe ports

A complete solution.

ADVANCED CAPABILITY, CLINICAL EDUCATION, AND FINANCING TO FIT YOUR BUDGET

VERSATILE SYSTEM, SIMPLE TO USE

Multiple exam protocols and applications help you diagnose a wide spectrum of patient conditions. Intuitive automated tools streamline workflow.

Use **Scan Assistant** lets you create standardized exam protocols, saving keystrokes, reducing stress and fatigue, and maximizing exam consistency

Use **Whizz** dynamic image tuning continuously optimizes the image as you scan, even as you move from one organ or area to another

Use **Tomographic Ultrasound Imaging (TUI)*** to assess slices within a volume

Use **TruScan** to review and analyze images after exams at your convenience

Use **3D volume*** imaging for rich anatomical views

Overlay **voice comments** on images for playback when reviewing exams

Capture standard pre- and post-stress cardiac views with **Stress Echo**

Use **Automated measurements*** of bladder volume, IMT thickness, left ventricular ejection fraction, fetal characteristics and more

Compare current and prior exams side-by-side with the **Follow-Up Tool***

Use **elastography*** to evaluate the stiffness of tissue and underlying structures

Use **Network options*** let use the cloud¹ to share images with referring physicians²

**optional

Versana Balance

Competent. Efficient. Practical.

WORLD-CLASS ULTRASOUND DESIGNED FOR PEACE OF MIND.

Versana Balance ultrasound helps you provide reliable general practice care with no compromise on quality. This practical, competent system delivers comprehensive scanning for diagnosis and monitoring in private clinics, GP offices, and other primary-care settings.

Designed for physicians who have used ultrasound and wish to upgrade their capability, the affordable Versana Balance combines design, workflow and features developed based on extensive research and testing to meet users' demanding requirements.

ERGONOMIC FEATURES FOR CLINICIAN AND PATIENT COMFORT

- 21,5" high resolution LED monitor
- Gel warmer*
- Compact footprint
- Height-adjustable console
- 4 active Probe Ports

A complete solution.

**SOLID CAPABILITIES, EDUCATIONAL SUPPORT,
ATTRACTIVE FINANCING**

COMPETENT SYSTEM. EFFICIENT AND PRACTICAL.

Versana Balance delivers diverse imaging for abdomen, cardiac, OB/GYN, vascular and small parts exams, giving you clinical condence and your patients timely diagnoses and referrals. Intuitive design and automated tools simplify exams and streamline workow.

Use a **Thyroid Productivity*** Tool for structure characterization and TI-RADS assessment

Create custom exam protocols and standardized workow with **Scan Assistant**

Use **Scan Coach*** 3D animation, anatomic illustrations and reference images to find the correct scan plane

Make **automatic** 2D measurements and volume calculations

Measure intima-media thickness with **Auto-IMT***

Use the **Follow-Up Tool*** to easily compare current and prior images

Use **Whizz** dynamic image tuning to scan while seamlessly optimizing image quality

Use **templates** to create custom reports to suit global or regional standards

Easily add **voice comments** to exams

Upload images and reports* to the cloud for consultation or sharing with patients

Versana Active

Advanced. Capable. Adaptable.

WORLD-CLASS ULTRASOUND DESIGNED FOR PEACE OF MIND.

Versana Active™ ultrasound system delivers the imaging capability of a console in a hand-carried, lightweight package that enables you to actively take your system to your patients, on premises or remote facilities.

This reliable system brings the agility of a laptop unit with capability for attaching to a cart. Adaptable to cover a broad range of everyday exams, it is easy to carry to clinics and physician offices.

ERGONOMIC FEATURES FOR CLINICIAN AND PATIENT COMFORT

- Light (5 kg/11 lb) and slim (57 mm/2.3 in)
- 15.6" high resolution LCD monitor
- 1 active probe port
- Cart option to suit scanning preferences

A complete solution.

ADVANCED APPLICATIONS,
EDUCATIONAL SUPPORT,
ATTRACTIVE FINANCING

CAPABLE, ADAPTABLE SYSTEM FOR COMPREHENSIVE GP SCANNING

The light, portable Versana Active makes exams comfortable for you and your patients, in clinic. Scan at bedsides, in space-constrained rooms.

View fetal details with **3D imaging***; take fetal measurements with **SonoBiometry***

Use **templates** to create custom reports to suit global or regional standards

Use **Auto Bladder*** to easily calculate volumes, including residual urine volume

Easily add **voice comments** to exams

Upload images and reports* to the cloud for consultation or sharing with patients

Use a **Thyroid Productivity*** Tool for structure characterization and TI-RADS assessment

Create custom exam protocols and standardized workow with **Scan Assistant**

Use **Scan Coach*** 3D animation, anatomic illustrations and reference images to find the correct scan plane

Simplify exams and measure structures detected with a **Breast Productivity Tool***

Measure intima-media thickness with **Auto-IMT***

Use the **Follow-Up Tool*** to easily compare current and prior images

Versana Essential

Care with Confidence.

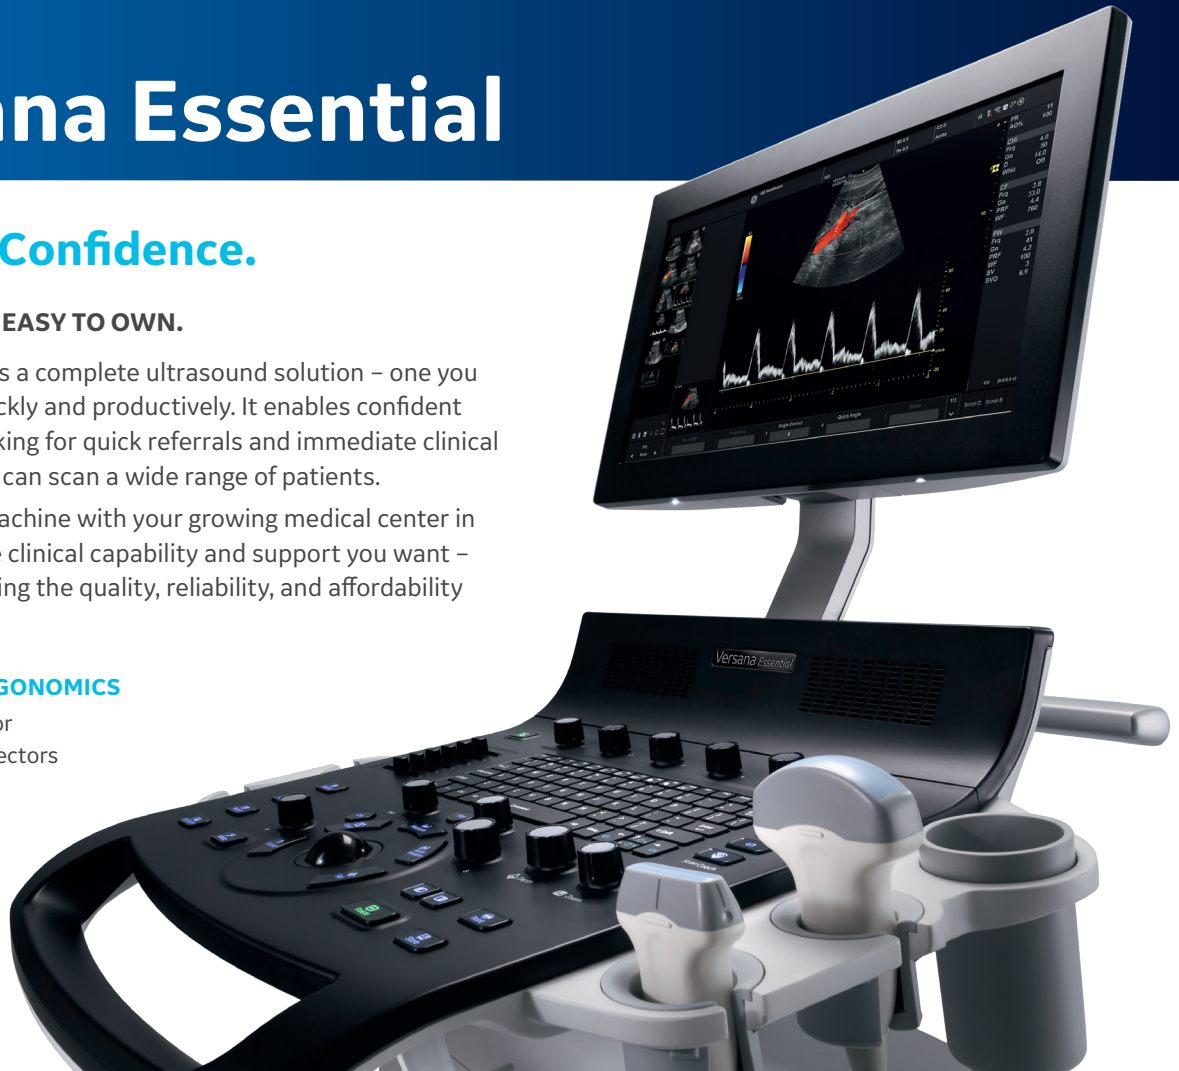

EASY TO USE AND EASY TO OWN.

Versana Essential™ is a complete ultrasound solution – one you can learn to use quickly and productively. It enables confident clinical decision making for quick referrals and immediate clinical correlation – so you can scan a wide range of patients.

We designed this machine with your growing medical center in mind, to provide the clinical capability and support you want – without compromising the quality, reliability, and affordability you need.

SIMPLICITY AND ERGONOMICS

- 17" 16:9 LED Monitor
- 3 active probe connectors
- Color Doppler
- Simplified workflow

Patient focus with support from:

Easy image quality optimization with **Wizz** function

Easy-to-learn system with dedicated functions of **Scan Assistant, Scan Coach** and **My Trainer**

Simple and fast to use with automated calculations: **SonoBiometry***, **Auto IMT***

Small footprint and light weight to fit in almost every room

Trusted reliability built on the legacy of GE ultrasound excellence

Dependable multi-year service coverage, plus technical support always close at hand

Welcome to Versana Club

Learn. Network. Share.

You're welcome to our Versana Club, a network of Versana ultrasound users from all around the world. You'll enjoy many tools and resources available exclusively to members, all designed to help you apply the full power of your Versana system. As a member, you'll hear about developments in Versana product line and learn about special offers and opportunities.

In addition, you will have access to other GE ultrasound clubs, such as Voluson™ Club, Vivid™ Club, LOGIQ™ Club and ABUS Club.

Your Versana Club membership benefits:

- Information on new products and services solutions
- Relevant, timely content on ultrasound and patient care, including educational offerings and web-based tutorials
- Access to clinical image gallery including images shared by your peers
- The latest news, plus information about regional ultrasound events
- Access to the broader family of GE user clubs
